## 4th of July to be Observed

### County-Wide Picnic Under Auspices of Council of Defense.

The County Council of Defense met at Homer Saturday, June 1, with every precinct committeemen present.

Because of difficulty in keeping the accounts straight the council voted that all remittances should be sent to the secretary, who was instructed to keep a record of the same.

The secretary also was instructed to have printed labor registration cards, which will be used throughout the county in registering all men and boys over 16 years of age. On the day set for that purpose every one will come to town to register. Thus there will be a record of what everybody is doing and a record of available labor in emergencies, such as harvesting.

The council decided to hold a county celebration at Dakota City on July 4th. It is the plan to make this a monstrous patriotic demonstration. The net proceeds from concessions will be donated to the local Red Cross chapters. A. B. Cowrie was made chairman of concessions; Tom Sullivan, chairman of committee on amusements; Harry Adair, chairman of committee on music; Thomas Ashford, chairman of committee on arrangements, and J. F. Demel, chairman of committee on speaking.

It is desired that as much publicity as possible be given to the proposed celebration and that each local council of defense organization give all the assistance possible in making it a great success. Hereafter the council will meet every other week.

J. P. DEMEL,  
Secretary.

## "His Treatment is Remarkable," He Says

Capt. F. S. Patty, Ex-Passenger Agent Northern Pacific, Discusses Former Troubles.

Nearly everybody in Knoxville, Tenn., especially railroad people, know Capt. F. S. Patty, for twelve years district passenger agent for the Northern Pacific railroad, with local offices in Chattanooga and general offices in St. Paul, Minn.

On account of generally failing health Capt. Patty was forced to discontinue active work and for the past few years has been making his home in Knoxville, where he numbers his friends by his acquaintances. He is a kind, genial gentleman of the old school and is beloved by all who know him. The following interesting statement was made by him in person to the Tanlac representative:

"I am 69 years old and always enjoyed good health up to about six years ago, when I suffered a nervous breakdown and my general health gradually failed me. My principal trouble was indigestion and catarrh, but my whole system seemed to be out of shape. My condition finally got so bad I couldn't sleep at night and always after eating I would suffer so from indigestion and heartburn that I just felt like there was a coal of fire in my stomach. My hearing and vision were also affected. I consulted several doctors here in Knoxville and other cities and they helped me considerably and I finally got so I could go around, but some how I just couldn't feel right, which made me awfully nervous and nothing I would eat seemed to agree with me.

"I began reading about this Tanlac

when you first came here, but did not decide to try the medicine until I talked with a friend of mine who had actually used it. He said it was the best thing he had ever taken, and that was sufficient proof for me.

"I have just finished the first bottle and came here this morning, not only to buy the second bottle, but to tell you just what it has done for me. I began enjoying my meals from the first few drops. My nervousness is gone and I can sleep like a child and always wake up in the morning ready for breakfast and feeling refreshed. I am very fond of onions, but was almost afraid to eat them, because they always disagreed with me so; I could taste them for hours afterwards. I ate one for dinner the other day and it agreed with me perfectly and I felt no bad effects whatsoever. I tell you I am beginning to feel like a different man and am always going to keep this Tanlac on hand. It has done me more good than anything else in the medicine line I have ever taken. I certainly do recommend it to my friends. It is really remarkable."

Tanlac is sold in Dakota City by Neiswanger Pharmacy.—Adv.

Behind the Telephone Operator There is a Large Invisible Army

A muster of the telephone forces of the country would bring together nearly 200,000 men and women.

Over 100,000 young women comprise the operating force alone—a force now handling an intricate telephone traffic of more than thirty million messages a day.

Telephone employees everywhere are playing a big part in the war-time activity of the nation. They are meeting each task with a spirit that at all times deserves from the public a courteous appreciation of their efforts.
